TIME MACHINE'S OTHER OPTION: ROCKET SHIP IN DEEP SPACE.

KINETIC ENERGY BUILDS UP THE CLOSER YOU GET TO THE SPEED OF LIGHT.

HOW FAR COULD WE PENETRATE THE KINETIC ENERGY FIELD WITH OUR ANTI-ENERGY ROCKETS BEFORE THE K.E.F. BECOMES TOO GREAT FOR OUR ANTI-ENERGY ROCKETS TO GO ON ANY FURTHER?

ANOTHER ONE OF THE BIG 3 IFS: ANTI-GRAVITY CONTAINMENT AND CONTROL. WOULD THAT ALONG WITH THE ANTI-ENERGY ROCKETS GET US THROUGH THE LIGHT BARRIER?? IF WE BREAK THE LIGHT BARRIER WE WILL BE ABLE TO GO TO THE PAST OR FUTURE ANYWHERE IN OUR UNIVERSE. WE WOULD HAVE REACHED INFINITY AND ABSOLUTE "0" TIME.
