

TIME MACHINE.

OTHER OPTION: ROCKET
SHIP in DEEP SPACE.*Ray Vitolo 1-11-08*

★
HOPING TO BE DISCOVERED IN THAT 96% OF UNKNOWN DARK SPACE. KEY TO T.M.

CAPSULE: LIGHT AS POSSIBLE; COVER, TEFLON PLASTIC; FRAME, GRAPHITE; TO GAIN SPEED, MAGNETIZE CAPSULE IF PRACTICAL. NEUTRALIZE KINETIC ENERGY WITH THE FOLLOWING, EITHER SEPARATELY OR IN COMBINATION:

★
ANTI-MATTER SHIELD, ANTI-ENERGY SHIELD, ANTI-GRAVITY SHIELD? MOUNT SMALL IMPROVED ION ENGINE ON END OF CAPSULE IF PRACTICAL. USE AS MANY BOOSTER STAGES AS IS PRACTICAL IN A VACUUM TUBE ON A MULTI-MILE LINEAR TRACK IN TANGENT WITH MAIN TRACK.

CAPSULE ACCELERATOR: COMBINE FOLLOWING LIST OF TECHNOLOGY:

GO FOR A MINIMUM OF 1/67 of "C"
SEE PAGE 3.

① SUPER-CONDUCTING SUPER COLLIDER. (WAS UNDER CONSTRUCTION UNTIL 1993. CONGRESS CANCELED). ROUND 54 MILE TRACK.

② HADRON COLLIDER. PLANNED COMPLETION SUMMER OF 2008.

③ SCIENTISTS HAVE BEEN EXPERIMENTING WITH MAGNETIC TRAINS, RAILS AND CONTAINERS FOR YEARS. (MAGLEV TECHNOLOGY). USE TO CONTROL AND CONTAIN ANTI-ENERGY AND ANTI-MATTER FOR SHIELDS IF PRACTICAL.

④ VACUUM TUBE: MODIFY TO CREATE THE VERY MAXIMUM VACUUM POSSIBLE WITH OUR LATEST TECHNOLOGY.

⑤ BUILD ON OCEAN FLOOR USING OPTIMUM DEGREES OF AVAILABLE NATURAL RESOURCES OUR TECHNOLOGY CAN USE: DEPTH FOR PRESSURE; CURRENT AND COLDEST

Ray Vitolo 1-11-08

2.

WATER ON PLANET FOR COOLING EQUIPMENT. (IF COLD IS IMPORTANT FACTOR BUILD TRACK ON HIGHEST PLATEAU IN ANTARCTIC. OR AS DEEP AS PRACTICAL IN OCEAN FOR COLD AND OR PRESSURE).

CRYONICS, HUMAN FACTOR: LATEST INFORMATION AVAILABLE TO ME. NO HUMAN HAS EVER BEEN REVIVED FROM CRYOPRESERVATION BY CRYONICS, AND PROPOSED METHODS FOR RIVIVAL ARE BASED ON SPECULATION CONCERNING CAPABILITIES OF FUTURE TECHNOLOGY. (COULD HUMANS BE PUT INTO A STATE OF HIBERNATION BY USING LATEST APPLIED CRYOBIOLOGY METHODS FOR CONTROLLED PERIODS OF 6 TO 12 MONTHS?)

AT THE ANTI-SPEED OF LIGHT YOU MAY AGE QUITE ALOT IN RELATION TO EARTH. WE WILL HAVE TO RELY ON THE CAPABILITIES OF FUTURE TECHNOLOGY MENTIONED ABOVE.

★ KEY TO T.M.: IF WE COULD CONTROL " THE REALLY BIG 3 IF'S, ★ WE COULD THEN CONTROL THE SPEED OF LIGHT AND TIME IN EITHER DIRECTION BY GOING ANTI-SPEED OF LIGHT (PAST); SPEED OF LIGHT (FUTURE)?

ANTI-ENERGY
ANTI-MATTER
ANTI-GRAVITY

DARK SPACE
96% IN OUR
UNIVERSE?

NEW TECHNOLOGY, ATOMIC FORCE MICROSCOPE, SCIENTISTS HAVE MEASURED THE FORCE NEEDED TO NUDGE ONE ATOM. ABOUT
130,000,000 OF AN OUNCE OF FORCE PUSHES A COBALT

3.

ATOM ACROSS A SMOOTH FLAT PIECE OF PLATINUM.

(WITH THIS NEW TECHNOLOGY WE MAY BE ABLE TO BUILD A CONTROL UNIT TO NEUTRALIZE THE KINETIC ENERGY ON THE T.M.). THIS MAY BE THE ONE BREAK-THROUGH TO ACTUALLY TAKE THE T.M. OUT OF THE REALM OF SCIENCE FICTION.

IN METRIC UNITS THE SPEED OF LIGHT, "C" IS EXACTLY 299,792,458 METERS PER SECOND (1,079,252,848.8 km/h).

IN IMPERIAL UNITS, "C" IS ABOUT 186,000 MILES PER SECOND.

$$\begin{array}{r} 186,000 \text{ MILES PER SEC.} \\ \times 60 \text{ SEC.} \\ \hline 11,160,000 \text{ MILES PER MIN.} \end{array} \qquad \begin{array}{r} 11,160,000 \text{ MILES PER MIN.} \\ \times 60 \text{ MIN.} \\ \hline 669,600,000 \text{ MILES PER HR.} \end{array}$$

ROUNDED OFF 670,000,000 MILES PER HR.

$$\frac{10,000,000 \text{ MILES PER HR.}}{670,000,000 \text{ MILES PER HR.}} = \frac{1}{67} \text{ of "C"}$$

STRAY THOUGHTS

COULD A MAN BE PLACED IN A DOUBLE CAPSULE AND THE OUTER CAPSULE BE ROTATED OR VIBRATED CLOSE TO THE SPEED OF LIGHT? WOULD IT HAVE ANY AFFECT ON TIME IN THE INNER CAPSULE?

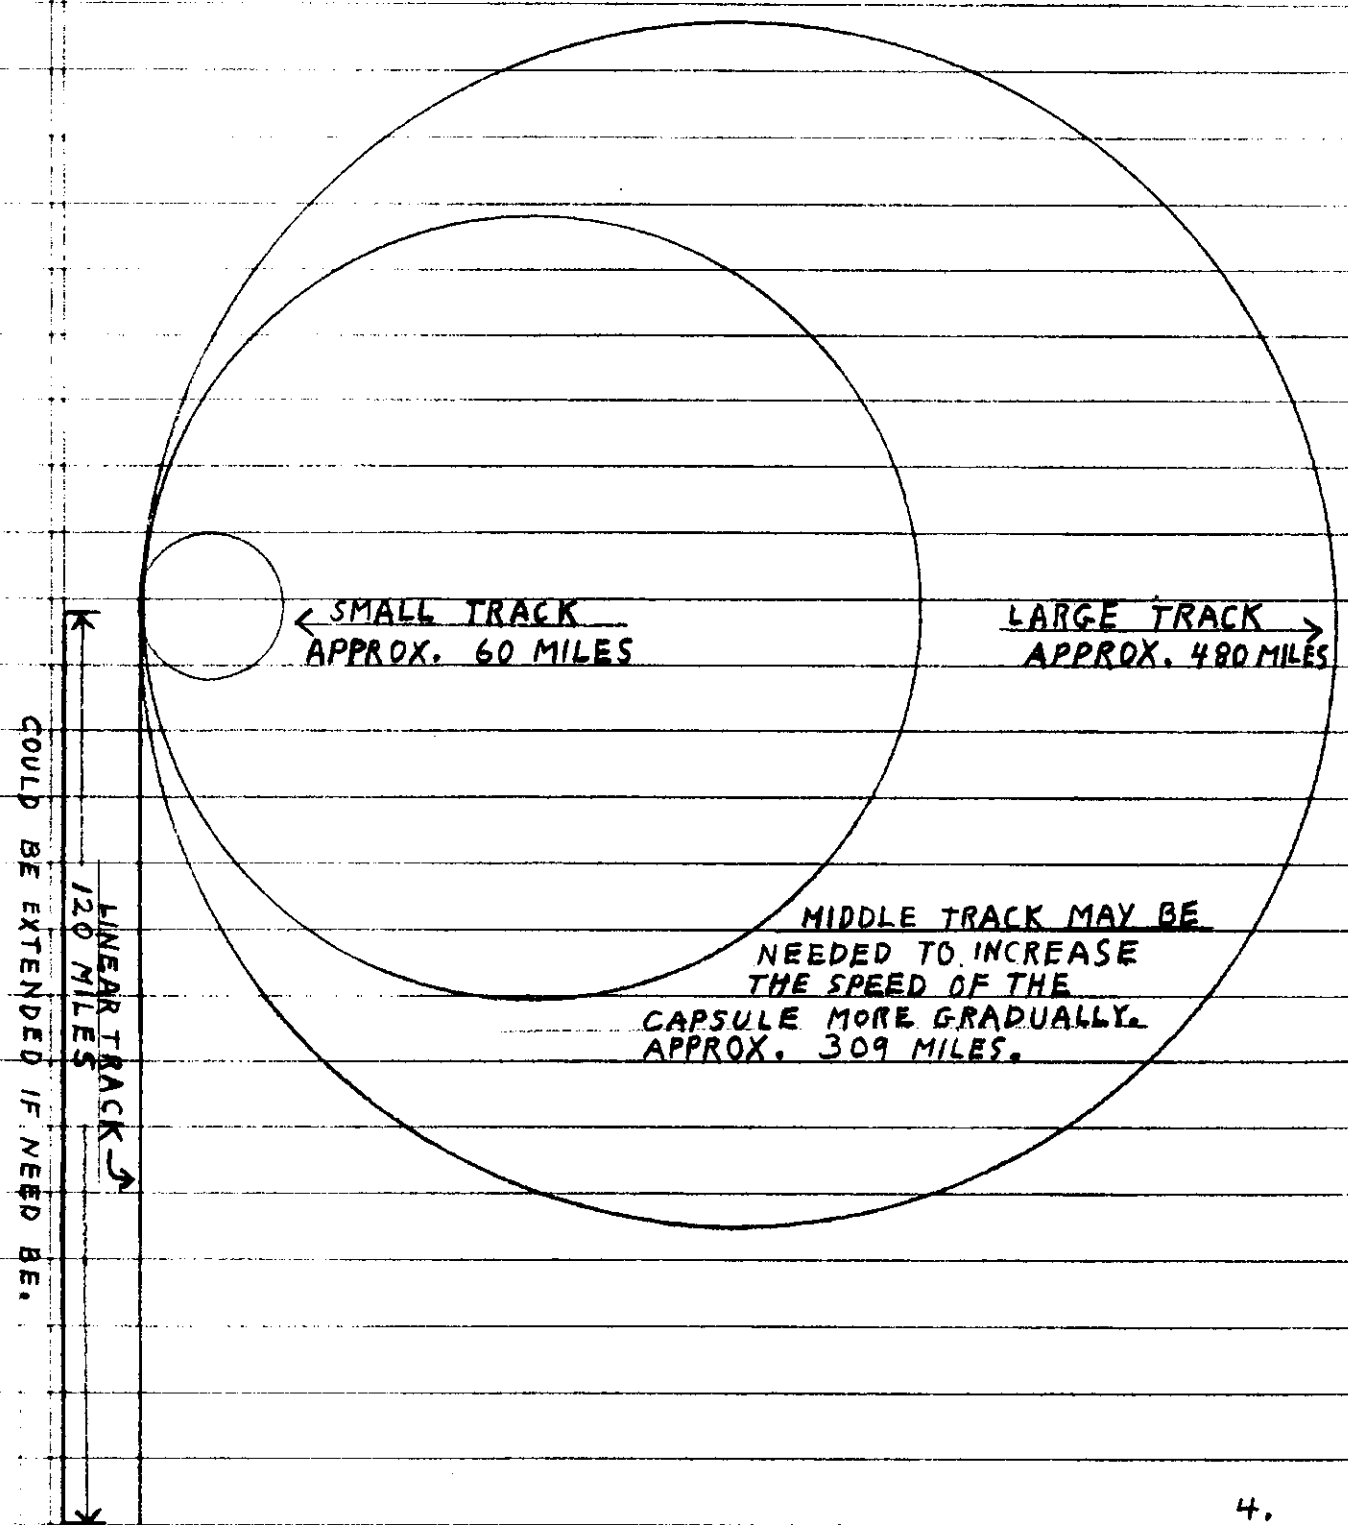

COULD A MAGNETIC FIELD BE MADE TO VIBRATE OR CYCLE TO THE SPEED OF LIGHT WITH A DOUBLE CAPSULE SUSPENDED IN IT?

IS THERE ANYWAY TO CHANGE MATTER AND ENERGY INTO ANTI-MATTER AND ANTI-ENERGY?

Ray Vitolo 11-13-08

4. SCALE: ONE MILLIMETER = ONE MILE.

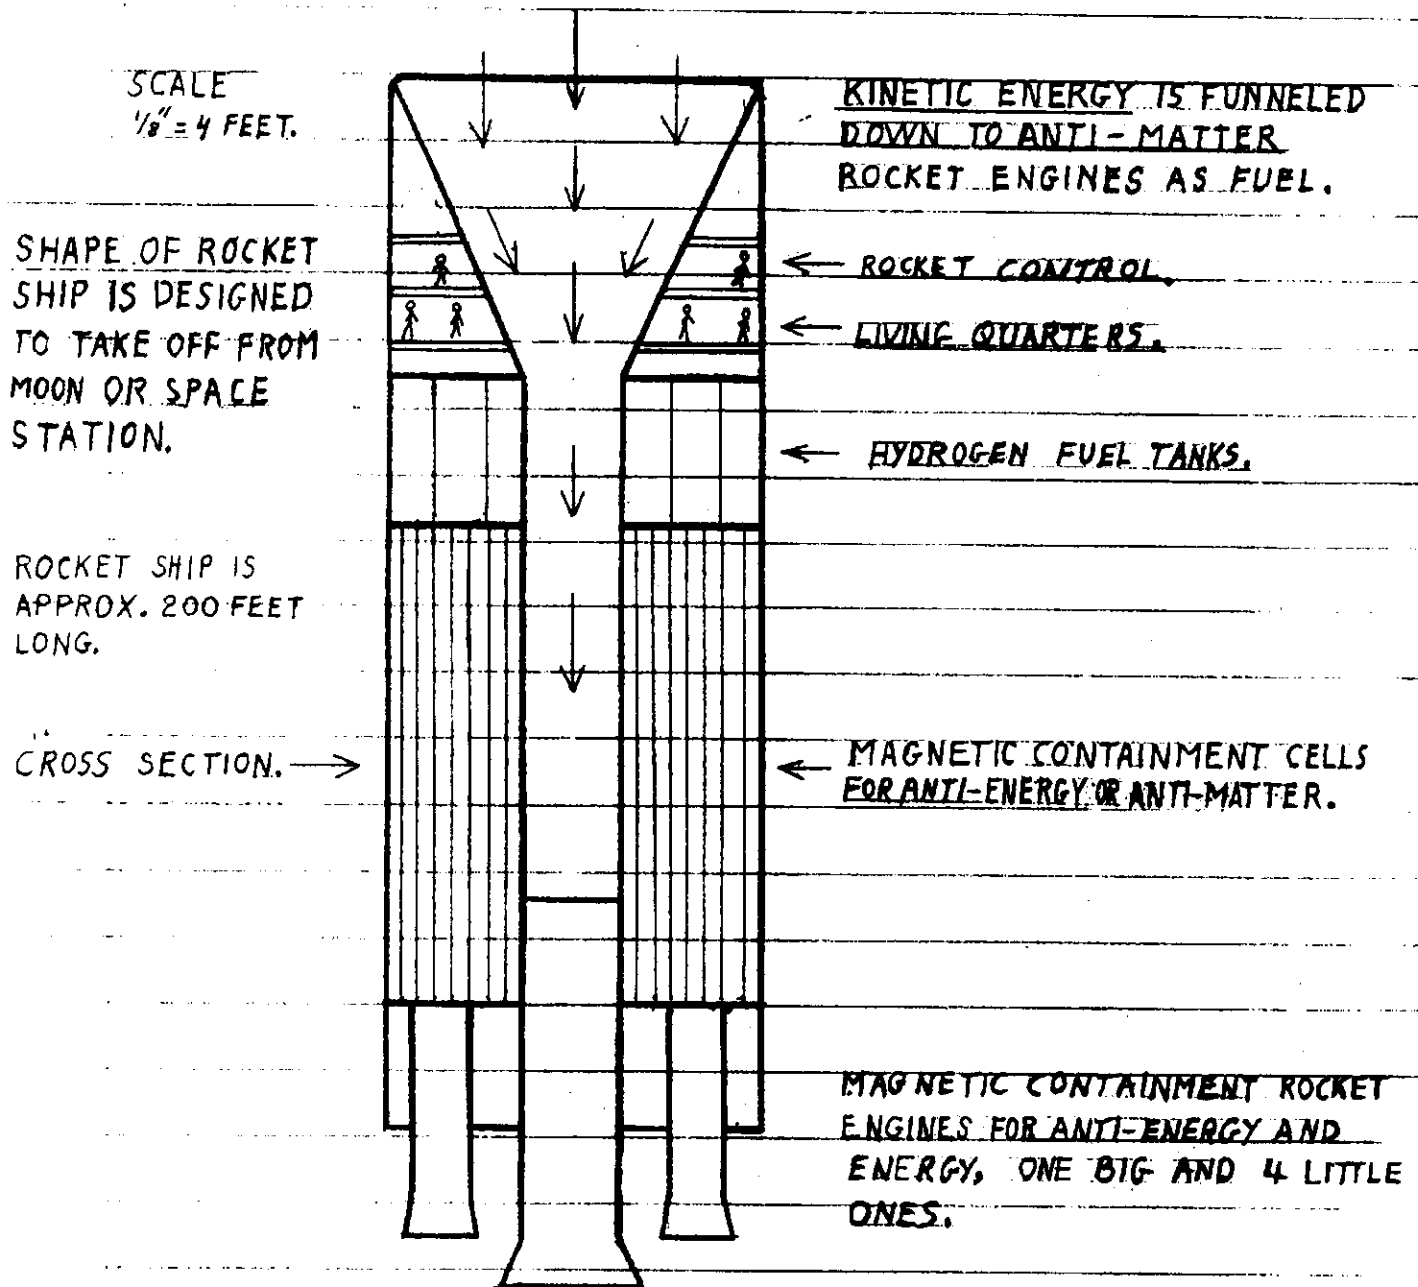

THE LONGEST TRACK TO OFFSET THE CENTRIFUGAL FORCE WOULD OBVIOUSLY BE A TRACK AROUND THE EARTH.

Ray Vitolo 11-30-09

TIME MACHINE'S OTHER OPTION: ROCKET SHIP IN DEEP SPACE.

KINETIC ENERGY BUILDS UP THE CLOSER YOU GET TO THE SPEED OF LIGHT.

HOW FAR COULD WE PENETRATE THE KINETIC ENERGY FIELD WITH OUR ANTI-ENERGY ROCKETS BEFORE THE K.E.F. BECOMES TOO GREAT FOR OUR ANTI-ENERGY ROCKETS TO GO ON ANY FURTHER?

ANOTHER ONE OF THE BIG 3 IFS: ANTI-GRAVITY CONTAINMENT AND CONTROL. WOULD THAT ALONG WITH THE ANTI-ENERGY ROCKETS GET US THROUGH THE LIGHT BARRIER?? IF WE BREAK THE LIGHT BARRIER WE WILL BE ABLE TO GO TO THE PAST OR FUTURE ANYWHERE IN OUR UNIVERSE. WE WOULD HAVE REACHED INFINITY AND ABSOLUTE "0" TIME.
